By Doris Teichler-Zallen

Rutgers University Press, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. Tests are a standard part of modern medicine. Is the timing right for testing? Do the benefits of having the genetic information outweigh the problems that testing can bring? Determining the answers to these questions is no easy task. In this highly readable book, Doris Teichler Zallen provides a template that can guide individuals and families through the decision-making process and offers additional resources where they can gain more information. She shares interviews...
