

Mad Science 2: Experiments You Can Do at Home, But Still Probably Shouldn't

Filesize: 2.69 MB

Reviews

The book is fantastic and great. It is definitely basic but shocks in the 50 percent in the pdf. Its been printed in an remarkably basic way and it is just soon after i finished reading this publication in which really changed me, change the way i believe.
(Dr. Lukas Hills DDS)

MAD SCIENCE 2: EXPERIMENTS YOU CAN DO AT HOME, BUT STILL PROBABLY SHOULDN'T

Black Dog & Leventhal Publishers Inc. Hardback. Book Condition: new. BRAND NEW, Mad Science 2: Experiments You Can Do at Home, But Still Probably Shouldn't, Theodore Gray, Best-selling author Theodore Gray is back with all-new, spectacular experiments that demonstrate basic principles of chemistry and physics in thrilling, and memorable ways. For nearly a decade, Theodore Gray has been demonstrating basic principles of chemistry and physics through exciting, sometimes daredevil experiments that he executes, photographs, and writes about for his monthly Popular Science column 'Gray Matter.' Theo Gray's Mad Science: Experiments You Can Do at Home, But Probably Shouldn't, published by Black Dog in 2009, collected Gray's Popular Science columns, along with hundreds of photographs, many of which were not published with the original columns. Now comes the second volume of mad-scientist experiments, which includes more dramatic, enlightening, and sometimes daring demonstrations in which Gray dips his hand into molten lead to demonstrate the Leidenfrost effect; crushes a tomato between two small magnets to demonstrate the power of neodymium-iron-boron magnets; and creates trinkets out of solid mercury to demonstrate how the state of matter depends very much on the temperature at which it exists. Other experiments include: A foil boat floating on an invisible sea! DIY X-ray photos! A bacon lance that cuts steel! Charging a smart phone with apples and pennies! And dozens more!.
