Creating Mobile Apps with Sencha Touch 2: Learn to use the Sencha Touch Programming Language and expand your skills by building 10 unique applications

By John E. Clark,Bryan P. Johnson

Packt/Shroff Publishers & Distributors Pvt. Ltd., 2013. Softcover. Condition: New. What you will learn from this book Use Sencha Architect and Sencha Command to give you a head start with your projects Take advantage of cameras, notifications, and other native device features Create charts that will add visual appeal to your applications Tie your applications into other systems like WordPress, RSS feeds, Yelp and others Compile an application you can sell on the iTunes app store In Detail Everyone has had the perfect idea for a mobile application. Creating Mobile Apps with Sencha Touch 2 can help you bring that idea to life by providing clear examples, in depth explanations, and walking step-by-step building 10 different Sencha Touch mobile applications. You can use these applications as a base for your own applications or leverage your new skills to create something truly unique. "Creating Mobile Apps with Sencha Touch 2" offers you 10 different applications complete with source code. The applications include a task manager, RSS feed reader, time tracker, charting application, flash cards, cataloguing, social networking, integration with WordPress, a project workbook, and a basic game. The book also covers working with the Sencha Architect, Sencha.io, and compiling applications with...
