Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Problems in Animal Metabolism: A Course of Lectures Given in the Physiological Laboratory of the London University at South Kensington in the Summer Term, 1904 The subject chosen for these lectures was, I think, sufficiently indicated in the title under Which they were announced. The underlying motive in current investigations is frequently the solution of problems which are not expressly formulated. Such problems are certainly not ripe for dogmatic treatment. But the lectures in the University Laboratory at South Kensington are intended for those students of medicine who have already had the opportunity of learning the essential facts in physiology. They are planned to foster in those studying the practice of medicine an interest in the efforts of others who study the theory, and to keep alive the faith that among the theories of to-day lie the foundations of the practice of to-morrow. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
