

Entrepreneurship in Centraeast Europe: Conditions . Opportunities . Strategies

By Jana Sereghyova

Physica-Verlag. Paperback. Condition: New. 279 pages. Dimensions: 9.2in. x 6.1in. x 0.7in. The transformation process, on which all four Central East European countries, i. e. the Czech Republic, Hungary, Poland and the Slovak Republic, have embarked, has become the subject of numerous publications. But as yet the majority of them dealt with institutional (systematic) changes and their implications for macroeconomic developments, while changes going on in the enterprise sphere received as yet only little attention. Even the few publications dealing with microeconomic topics focused only on individual issues and are thus unable to give a comprehensive picture of new entrepreneurial opportunities emerging in these countries. In order to fill this gap, economists from the Czech Republic, Germany, Hungary, Poland and Spain put forward a proposition to analyse these developments in the framework of the A. C. E. programme of the European Communities. The E. C. included the research project entitled Entrepreneurship in Central East European Countries in the Framework of Increasing East-West Economic Compatibility into the second round of that programme.
