The Wars of the Roses are imagined here with energy, with ferocity, with hunger to engage the reader.' Hilary Mantel England: October, 1463. The great slaughter of the battle of Towton is two years past, but England is still not at peace. The Northern Parts of the land remain in the hands of the Lancastrian king, while in the south, the princes of the house of York prepare for war. Uneasy alliances are forged and just as quickly broken: a friend one day might be your enemy the next, and through this land, pursued by the Church and the Law, a young man, Thomas, and a young woman, Katherine, must make their way, bearing proof of a secret both sides would kill to learn. Bent on revenge for a past outrage, Thomas and Katherine must turn their backs on their friends and journey to the mighty castle of Bamburgh, there to join a weakened king as he marshals his army to take up arms in one of the most savage civil wars in history: the Wars of the Roses.
