

Nature's Medicine: Plants that Heal: A chronicle of mankind's search for healing plants through the ages

By Swerdlow, Joel L.

National Geographic, 2000. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: For thousands of years -- indeed, for all of human history except for the past 50 to 70 years in Western societies -- plants have been our chief source of medicine. The fascinating story that unfolds in the pages of this book is much more than a catalog of natural cures. Equal parts scientific inquiry and cultural history, it's nothing less than a chronicle of the healer's art as it evolved from folk remedies to modern science. It's also an account of humanity's continuing quest to discover new medicines and to unravel the complex and often deeply mysterious interactions between the biochemistry of plants and the human body. From the doctor-philosophers of classical antiquity to the shamans of today's rain forests, healers have prescribed a multitude of cures culled from the flora around them, and in many societies these ancient treatments are still in everyday use. In India, for example, Ayurvedic physicians continue a tradition first codified in written form many centuries before the birth of Christ. The origins of Chinese medicine are similarly shrouded in myth, but its effectiveness has been proved time...
