VC Imagination Factory. Paperback. Condition: New. 208 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. A young man by the name of Jaden is abducted by benevolent aliens, bio-engineered to superhuman levels and sent back to Earth years later to stop an alien invasion. 150,000 years ago Darclonians began on an experimental dark energy/dark matter weapon that works only with carbon-based life forms. The organic subject would eventually die. 100,000 years ago Darclonian probes sought out thousands of planets with life on them that could develop into intelligent life forms. The probes fired quadrillions of nanomoles into Earth's atmosphere seeking intelligent life. The nanomoles hid inside of the modern Homo sapien brain and studied humans for thousands of years. The nanomoles recorded our feelings, memories, emotions, experiences, and DNA from generation to generation. Today the nanomoles await a signal from a Darclonian mothership to begin its 84-hour three-stage countdown. Jaden's bio-engineered body is the key to perfecting the Darclonians' weapon of mass destruction. The rebirth of science fiction begins. Optic-warp - A new concept on how an alien species 70,000 years ahead of humans travels through space. This concept is based off of human fiber-optics technology (breaking...
