Wacky friends help you count And teach what color s all about It s color fun time In number and rhyme Little characters - from one arty mouse to twelve smiling crocs - take children around the color wheel. Bear and bug rhymes further explain the colors brown and black, and additional rhymes explain shades, tints, tones, hue and the names of colors. Small children will enjoy listening to the color rhymes, early readers will enjoy reading them, and teachers and parents can refer to the color theory rhymes to explain the system to young children. Each rhyme is also repeated in a plain prose sentence. The CMY system is a good color system to teach to young children, as it is used extensively in our modern world of commercial printing, paint mixes and inks for desktop printers. Indie authors too, have had to come to grips with it! The quality of color printing we enjoy today, came about with the introduction of the CMYK system. Black was added to give depth to CMY color images (it is indicated by the letter K as can be seen in print cartridges)....
