Masters Thesis from the year 2011 in the subject Computer Science - Didactics, grade: -, University of Twente (Behavioural Science), course: ICT in science and mathematics - Educational Science and Technology, language: English, abstract: This study investigated the ways through which pre-service science and mathematics teachers at Dar es Salaam University College of Education (DUCE) can acquire competencies for integrating technology pedagogy and content in teaching. Specifically the study investigated the preservice teachers ICT integration competencies; practices that can be effective in enhancing pre-service science and mathematics teachers competency in integrating technology, pedagogy and content; as well as the impact of those practices in the development of preservice teachers technological pedagogical content knowledge. An action research approach was employed in the study, employing the pre and post-intervention assessment of preservice teachers knowledge on technology, pedagogy and content. Planned interventions were carried out during the study, to enable preservice teachers to identify areas of weaknesses in their technology integration competencies, and propose alternative approaches for addressing the identified weaknesses. Student questionnaire, instructor interview and observation checklist were used to collect data before, during and after intervention. Researchers...
