These sites are located within the proposed protective fencing project for cultural resources (see Map Reference Number 52 on Table 1-3 and Map 1-1). Summary The Proposed Action would result in potential impacts (disturbance or destruction) to 87 percent of the 300 known cultural resource sites. Of those which would receive impacts, 25 are significant and of National Register merit. Of the significant sites, 11 would be affected by livestock trampling, 18 by various erosional processes, 8 by livestock trailing, and 1 by other proposed range improvements. Some sites would receive impacts from more than one source (see Table 3-13). Another 237 known sites of lesser significance would also be impacted. Some categories of sites, such as rock art and cave/rockshelters, would not be expected to be significantly affected by the proposal....
