Brand New Book ***** Print on Demand *****.There is a real solution to the U.S. Healthcare Crisis, but we are nowhere close to it. Under our current path, Healthcare is the Titanic, and we are just rearranging the deck chairs. Unless the core problem is addressed, no other solution will work. Everyone knows the healthcare system is in crisis, but few recognize a crucial fundamental problem. The overall problem is of course that healthcare costs are rapidly increasing out of control without a matching improvement in quality, access, or outcomes. We provide the best healthcare in the world, yet the cost to provide that care is far higher than all other countries with similar results. To appreciate the real solution, you must first understand the fundamental problem. Let s explore both the obvious and, more importantly, the hidden true problem.
