

Thiosemicarbazones and its coordination chemistry : Studies on structure and properties of metal complexes prepared using heterocyclic thiosemicarbazone ligands

Filesize: 1.24 MB

Reviews

This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).

SPS Apr 2016, 2016. Taschenbuch. Condition: Neu. This item is printed on demand - Print on Demand Neuware - The book is given the idea about the coordination chemistry of thiosemicarbazides/thiosemicarbazones ligands with various metal complexes. Many functionally important biomolecules contain S-N donor site in suitable positions and the discovery of biological activities of various thiosemicarbazides/thiosemicarbazones and their metal complexes. Interest in the study of the chemical, biochemical and structural aspect of these compounds and their derivatives is growing. Though, the present effort summarized preparation of thiosemicarbazides/thiosemicarbazones ligands and their metal complexes. Characterization of metal complexes was studied on the basis of elemental analyses, mass spectra and FT-IR spectrum. Electronic spectral study along with magnetic data was examined to confirm the geometry of metal complexes. Also TGA were well discussed for decomposition temperature and degradation pattern. Further the biological evaluation was carried out for all the prepared compounds. 76 pp. Englisch.
