Oftentimes, doctors today gloss over the details that might help you feel better. Discover the 10 Things to Know Before You See a Doctor for Thyroid Disease including information about Lab Tests, Physical Exams Findings, Symptoms, Toxic Exposures, Supplements, Adrenal Evaluation, Food Allergy Evaluation, Natural Hormone Treatment. This book may have the information you need to succeed! What are the 10 things you must know about thyroid disease? Number one - thyroid tests are often not complete, the tests that are done, the doctor may come back and say Hey, I tested you for thyroid, here s the results, they are normal, and you are okay. This may not be true. Number two - laboratory tests are often not interpreted correctly. So even if they do more than one simple screening test and most do just one test, which is the simple TSH screening test, they then will say, Yes, I did three or four or even five tests, and you are okay. But this may not be true either, as sometimes they just don t know how to interpret them. Number three - laboratory tests really indicate what s in your blood, obviously it is a blood test, but this does not really indicate the cellular level of thyroid hormones. Number four - your physical exam findings may...
