The National Incident Management System (NIMS) represents a core set of doctrine, concepts, principles, terminology, and organizational processes that enables effective, efficient, and collaborative incident management. The Incident Command System (ICS), as a component of NIMS, establishes a consistent operational framework that enables government, private sector, and nongovernmental organizations to work together to manage incidents, regardless of cause, size, location, or complexity. This consistency provides the foundation for the use of ICS for all incidents, ranging from daily occurrences to incidents requiring a coordinated Federal response. This document includes guidance on how various disciplines can use and integrate the I/I Function while adhering to NIMS concepts and principles. It includes information intended for the NIMS practitioner (including...
